

GRAND RIBS AND INFLATABLE BOATS

ADVANCED PERFECTION

TARS OF

TINNOVATIONS, INNOVATIONS, INNOVATIONS

🏆 MAINTAINING THE HIGHEST STANDARDS

The fact that our internal quality control exceeds the standards of our competitors,

all GRAND models meet the requirements of the International Standard ISO/FDIS-6185.

European Community EEC Directive for Recreational Crafts 94/25/EC, and a number

of other strict international and national quality standards. This alone clearly indi-

cates that safety and reliability is the driving force behind GRAND. But it's you, our

customer, and your invaluable feedback that has earned GRAND a reputation

of being the Number One choice among recreational boaters.

We are proud to mention that each GRAND is a pure EUROPEAN-BUILTproduct, with no compromise on guality of workmanship, mate-

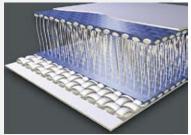

rials and engineering. We believe in expertise of our European skilled manufac-turing professionals and a unique GRAND guality con-

The key ingredient of GRAND's success is our innovations. By utilizing state-of-the-art engineering with extensive research and development, we not only raise the bar of quality, we provide the finest contemporary naval architecture available! Combined with our extensive experience in the aerospace industry, the aerodynamic and aircraft technology used in our advanced design and production processes results in a model that's tough to beat. With GRAND, your enjoyment will always be backed by our revolutionary technology.

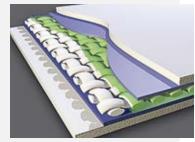

CE 🎡 🖗 🍎

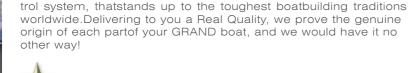

BUILT IN EUROPE

Double-wall drop stitch materials for high-pressure inflatable floors

5-layers plastomer coated reinforced fabric for the infatable tubes

WHERE QUALITY COUNTS

We have a law at GRAND — use the Best materials from the Best suppliers. We feel it's the only way to ensure the greatest quality. All parts and systems are built from reliable and credible brands. For instance, GRAND's inflatables are made of five layers coated 1100 Dtex and 1680 Dtex reinforced MIRA-SOL and VALMEX fabrics to ensure outstanding durability and abrasion resistance for life! If the best product isn't available, we create our own. Our original new HTL adhesive not only offers structural integrity, it also withstands temperatures up to 90 Degree C!

To ensure you receive the best product for the value, our buoyancy tubes are made of extra-strength CSM (ORCA/TREVIRA) for our high-end boats. With GRAND, there are advantages on and off the water!

Every GRAND model incorporates a unique combination of innovative techniques, patented designs and our years of expertise. Utilizing the latest CAD/CAM technology with the most advanced software, every GRAND is perfected to the smallest detail to ensure the utmost quality. Once a model has been built, we perfect it even more with an extensive on-water sea trial in the harshest conditions before it even sees a showroom floor!

OPEN CELL FOAM

Starting from Season 2014 GRAND starts using a new and more advanced type of the foam for all GRAND boats upholstery: water transparent OPEN CELL FOAM. This new type of the foam does not suck and hold the water at all — water just flows through the foam and immediately drains out. This nice feature keeps all the cushions more dry and gives more comfortable feeling!

FIBERGLASS STEP ENDS OF INFLATABLE TUBES

Most of our RIBs either come as standard, or might be equipped with unique feature, developed by GRAND — fiberglass step ends of inflatable tube:

- it is awesome when you are swimming, boarding or docking,
- it is safe and comfortable to stand or even seat on it,
- it perfectly works as a passive trim-tab, pushing the bow down.

"DART" HULL SYSTEM FOR RIBS

New "DART" system for rigid hulls is the next unique and original idea from GRAND, created to improve utility characteristics and performance with:

- More flotation and stability at the back
- Higher keel line, deeper "V" of the hull and softer ride
- Sufficiently more space in the front of the cockpit

• Less water spray generation and drier ride, as on top speed the tube touches the water at the very end!

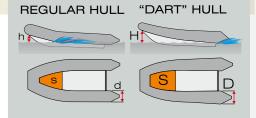

UNIQUE "HSH" DESIGN RIGID HULLS

The main concept behind our exclusive High-Step-Hull (HSH) is to increase buoyancy and ensure:

- the tube has less wetted surface during top speeds and planing over conventional boats,
- the tube offers excellent tracking during idle and slow speeds for superb maneuverability. Every model with the HSH Hull system also affords:
- improved performance and less fuel consumption,
- a higher freeboard, along with increased buoyancy and load capacity,
- a smoother ride with comfort, safety and absolutely dry cockpit.

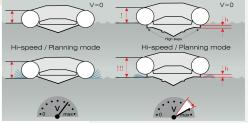

Stay / Displacement mode Stay / I

1. Unbeatable performance. Possibly the fastest RIB dinghies on the market!

saves gas! (\$300, \$330 only).

2. The unique 4 hull steps system is fast and **3.** Lowered tube ends for outstanding stability and an exceptionally dry ride!

4. Impressive carrying capacity with lots of **5.** Choose from a large selection of sizes cockpit space for your crew and staff.

to fit your swim platform.

Our SILVER LINE Tenders rank #1 in the rigid inflatable tender class by combining a traditional RIB design and our original styling. Stylish, light weight, very fast and spacious - SILVER LINE Tenders are Four main sizes are available including: 250 cm (8'2"), 275 cm (9'0"), 300 cm (10'10") and 330 cm (10'11"). Three platforms are also available:

- STANDARD FEATURES for BASE version: STANDARD FEATURES for SPORT version: Medium "V" double-shell fiberglass hull Steering console CS-01 with steering system, cable and steering wheel • 4 cross hull steps performance system (S300, S330) Inbuilt stainless steel fittings for the console Flat antiskid deck surface 3 towing bow eyes STANDARD FEATURES for DELUXE version:

S520L with fiberglass step ends and navigation arch

S520 • S520S • S520L

S520 model is one of the last and most modern GRAND designs of rigid inflatable boats in mid-size range, which from its first day became an absolute bestseller as a family and cottage boat. The key points of its philosophy are: practical, spacious, easy transformable and nicely equipped boat for unbeatable price. Its really Deep-V hull (over 25° on transom and over 50° max) makes the boat a perfect rider on choppy water and sea waves. If you are looking for the reliable, roomy and easy transportable RIB for your family holiday - S520 is exactly what you need!

There are three versions of this model available:

• BASE version (S520) - boat with empty cockpit to be custom equipped, • SPORT version (S520S) - boat with CS-03 SPORT console with windshield, railing and steering system,

• DE LUXE version (S520L) - boat includes new CL-12 DE LUXE steering console with windshield, railing, front seat and seatback and stowage compartment, and SD-02 rear double seat with st. steel polished railings, soft back and lockable container.

Each model is available with PVC or HYPALON buoyancy tube for your choice.

GRAND

5 good reason

for choosing

GRAND!

G850L•G850GL

Our new Golden Line G850 is the flagship of the GRAND fleet. This 8.5-meterlong beauty combines performance with desired comforts of the modern marine world. The general arrangement of this "day cruiser" follows the classical layout of the luxury RIBs construction: enormous sunbathing areas at bow and stern, a comfortable pilot seating with fridge and place for sink and cooking plate. Your boat will become an entertainment spot for all of your friends and family with our U-shaped seating in the rear of the cockpit. Molded in steps into the steering console allow safe access to the huge compartment which could arrange marine WC and sink. Our boat meets all your requirements for your rest. Moreover, when water gets rough, the robust Deep-V hull offers a great stability, even at top speeds. It makes a statement with its superb driving dynamics, great precision and handling.

Powered by one or two engines, it could be also complemented by different types of optional equipment that makes G850 a serious professional watercraft.

Feel the wind in your face and experience the excitement of being out on the water in your own G850!

G500LF • G500GLF

The Golden Line G500 is an absolutely fresh idea of our designer's team. A brand new model is high-powered, great at riding the waves out at sea and delivering the thrills and spills of water sports, whether it's water-skiing or wakeboarding, keeping up with the fish or simply enjoying the excitement of speed over water. It is one of the safest and worthy boats on the water with its light-weight, high-performance and high-capacity structure with a heavy-duty, Deep-V handlaid hull and an elegance tube with unique GRP step ends.

The Golden Line G500 has sporty look, and impress with it's seaworthiness. The driver's position is perfectly designed for driving while the rest of the cockpit meets the expectations of comfort for the passengers. A completely new, innovative hull with a great potential makes you enjoy handling the boat, and the effective construction provides a low consumption.

The boat is available with PVC or HYPALON tubes.

5 good reasons for choosing GRAND!

and dry ride even on high waves!

are the key features of this unique design. a lot of sunbathing space and storage. and watersports!

1. Exceptional performance, with a smooth 2. HSH hull system and transom extensions 3. Spacious and elegant cockpit provides 4. This boat is great for all kind of activities 5. Standard GRP tube ends with large

The GOLDEN LINE Rider pushes the envelope in contemporary naval architecture and engineering. But it's also about Elegance and Prestige. It opens an entirely new door in design and revolutionizes an entire class. With a long list of standard features, along with a thoughtful and impressive options list, this entry will undoubtedly serve the needs of versatile, adventurous boaters. And with its first-rate performance, good looks and plush comfort, the GOLDEN LINE Rider delivers the highest level of luxury boating, offering a first-class seat to enjoy the world in style! The series now is represented with the model G480 with LOA 480 cm (16') in two versions with the choice of HYPALON or MIRASOL tubes: • DE LUXE version (G480LF) - high-profile boat for cruising and watersports,

equipped with high-profile console with windshield and st.steel navigation arch. • ELITE version (G480EF) — low-profile boat as a yacht tender, equipped with low-profile steering console and two st.steel side railings. Both models have a unique and best selling feature: foberglass step ends of the inflatable tube, with large steps for easy boarding and swimming.

- Cockpit drain system with one-way drain valve Soft curved multi-chamber buoyancy tube · Doubled tough raised rubbing strake with splash guard Bow grab handle and board safety grab handles Molded-in bow and rear stowages with cushions High-profile seeting console with windshield

26

1. LIGHTEST LUXURY DINGHIES EVER !! 2. Elegant transom extensions for a better ride, 3. Fastest performing hull designes: Boat weights: G340 - 129 kg, G380 - 170 kg! stability, flotation and easily getting on plane! G340 - 4 cross steps, G380 - HSH system. cushion (optional).

Easy removable side seat with soft

G340EF with optional teack deck

5. Unique GRP tube ends with large and practical steps for easy boarding, swimming and better ride!

G340EF • G380EF

Since their launch in the marine industry, our GOLDEN LINE Tenders introduced a new age of luxury RIB design. With superior quality, comfort and elegance, this series has become a prestigious and exclusive tender for owners of luxury yachts. Every model boasts a unique water spray protection system that is designed to provide a dry ride with no water entering from the stern. There are currently two main sizes: 330cm (10'10") and 360cm (11'10") with fiberglass step ends - fully equipped boat with larger bow step plate with navigation light, pull up cleat and soft seat back, low profile console with handrail, and two rear railings.But the most unique feature is their unbeatably low weight, what makes them fitting any, even low capacity, lifting system:

• G340EF: boat weight = 129kg (284 lbs), boat+20HP motor = 204kg (450 lbs), • G380EF: boat weight = 170kg (374 lbs), boat+40HP motor = 265kg (583 lbs). GOLDEN LINE Tenders are available with MIRASOL or HYPALON tubes. Experience what a real magnificent pastime boating is!

Remarks: *- The bare boat weight is just a weight of the empty boat without any removable accessories. **- The transport weight is the weight of the complete boat in standard package. ***- Because of differences of local boatbuilding standarts The Loading Capacity and Maximum Engine Power may vary by country. Please check that with your local GRAND representatives/Dealers. ***- RANGER and CORVETTE with floorboards have 1 exits buoyancy volume— the inflatable keel, CORVETTE with airdeck have 2 extra buoyancy volumes: the keel and the bottom. ****- Boat design Category undre Classification of European Directive for Recreational crafts No 94/25/EC.

All the technical data are subject to change without notice. The products trim may be changed from the originally specified. All the dimensions are + or - 3%. All the weights are + or - 10%. Products availability, trim and specifications may vary by country. Please contact your local Dealer / Distributor for update information. The pictures in the catalogue were taken with the professional operators in strictly controlled conditions. Please never try any activity, which is beyond your capabilities, nor which is potentially dangerous. Always wear appropriate and approved life vest or other personal floation devices and appropriate conting. Follow the User's manual instructions for the boat and the engine. Make sure that you read and clearly understand all the restrictions and limitations. HAVE A SAFE BOATING!

ACCESSORIES & OPTIONAL EQUIPMENT

Steering console CL-01 Main dimensions: L580 x B480 x H960 (23' x 19' x 38') Steering console CL-02 Main dimensions: L825 x B480 x H1120 (23' x 19' x 38') Steering console CL-03 Main dimensions: L1100 x B620 x H1200 (43' x 24' x 47')

Steering console CL-04, CL-05 Main dimensions: CL-04: L1125 x B1040 x H1680 (45' x 42' x 67') CL-05; L960 x B900 x 1460 (38' x 36' x 58')

Cruising bar SD-04 Main dimensions: L825 x B1060 x H925 (33' x 44' x 37')

ATTENTION! All the consoles standard sets do NOT include any controls, instruments and steering. They should be ordered separately!

Steering console CS-01 Main dimensions:

L1300 x B400 x H675 (23' x 19' x 38')

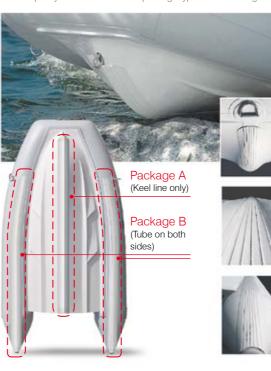

Double seats SD-01,SD-02,SD-03 Main dimensions: L550 x B1050 x H960 (22' x 43' x 33') L550 x B1150 x H960 (22' x 45' x 33') L650 x B1250 x H1060 (25' x 50' x 36')

Standing bar SD-05 Main dimensions: L550 x B1050 x H960 (22' x 43' x 33')

Keel and tube protection system Please specify the boat model and package type when ordering.

Stainless steel railing for consoles CL-01, CL-02 – item #2250, CL-03 – item #2251

Boat Cleaning and Maintenance kit

This kit includes:

1. SPEED CLEAN – unique active cleaner with HYPEXINE[™], especially designed for PVC and HYPALON inflatable boats.

POLYGUARD – a new Space Age poly-mer for complete protection of your boat against environment, gas, dirt, UV, stains etc. It does NOT contain silicon or wax!!!

Regular use of them will assure extended lifetime and perfect shape of your boat.

There products, manufactured by AURORA, Canada, are only chemicals, officially ap-proved my GMG for GRAND inflatable boats!

3-arch collapsible suntop Please specify the boat model when ordering.

Seat cushion with under-seat bag Please specify the boat model when ordering

Steering console CS-02 Steering console cover Please specify the console model when

item #2210

ordering

Boat overall cover Please specify the boat model when ordering
